2033.0.30.001	<i>Census of Population and Housing: Socio-Economic Indexes for Areas (SEIFA), Australia, August 1996</i>
---------------	---

SEIFA96 provides lifestyle groupings of Australia's communities based on data from the 1996 Census. There are five indexes which group Australians according to their social and economic conditions. These are:

- Urban Index of Advantage
- Rural Index of Advantage
- Index of Disadvantage
- Index of Economic Resources
- Index of Education and Occupation

SEIFA96 provides information and rankings for a wide range of geographic areas from small areas such as Collection District (an area made up of approximately 200 households), Postal Areas, Local Government Areas and Statistical Local Areas to large areas such as Statistical Subdivisions.

SEIFA96 is available as a stand-alone electronic product which contains the indexes and a fully documented software package which facilitates the manipulation of the indexes and as an add-on module for use with CDATA96.

This product is separately available for each State and Australia.
